### **The Downsizer**

Condensing a lifetime of family possessions into a smaller home can feel like pushing an elephant through a keyhole.

After a get-to-know-you consultation, Vicky Riley-Keyes of Red Coats Moving Solutions does a room-by-room analysis of what's needed for a comfortable life in your new place.

Then she creates a detailed floor plan to figure out where everything will go, helps organize the move and takes care of the storage or sale of anything extraneous.
