

## Here are two ways you can choose to make your move:

### **A** Move to Do List or

- Measure new home for furniture placement
- Try to design floor plan.
- Call/email the kids for help (give them time to go through things)
- Make calendar for next 6 - 8 weeks
- Sort through all the rooms and closets: go through the built-in bookcases - don't forget linen closet
- Cookbook collection - what do we do with it???
- Clear out basement (where do I even start?) - get boxes from store - lots of them
- Garage - what's even in those boxes on the top shelf? What to do with the second car?
- Clear out shed - lawn mower, snowblower, all the tools
- Call junk removal company (How much? When?)
- Need to call Toxic Taxi to arrange for removal of paint cans and toxic
- Schedule garage sale (Can Betty help - hope so). Contact newspaper, tag everything - what about a lawn sign?
- Buy packing materials - research stores online for best prices
- Pack! Pack! Pack! Corral the kids to help us
- Do I need to book an elevator for moving day?
- Arrange for a mover - need to get three quotes and references - call some friends for some recommendations
- Can we sell our unwanted things? Find out where.
- Contact charities and see what they'll take - we have too much stuff to take with us
- Find an electrician for taking down chandeliers (also need TV mounted)

### **B** Let our experienced team help you

We are Red Coats. Since 2004, we have helped over 1500 families downsize and transition to their new homes with our complete range of personalized, peace of mind move management services.

How can our experienced team help you?
